LIQUID DIAMONDS

1.0 G | 90-96% THC | 3-5% TERPS

ICE
ICE

POTENCY AND PURITY YOU CAN TRUST

GET THE FACTS. CLEAR AS ICE.

WHAT SETS ICE ABOVE THE REST

The next step in vape evolution, liquid diamonds are all about ultimate purity. Combining 99% THCa isolate with a dialled in terp ratio, Ice delivers unmatched flavour and maximum potency without compromise.

HOW LIQUID DIAMONDS ARE MADE

STEP 1

Dried cannabis is extracted with hydrocarbon (butane and propane) to create a THCa extract

STEP 2

Crude extract is taken through a proprietary process to crystallize the THCa so it can be separated from all other cannabinoids and contaminants, resulting in an ultra-pure, ultra-potent THCa extract between 99-100% THC

STEP 3

THCa is heated to decarboxylate THCa into THC, allowing the extract to liquify and limit any potential crystallization or degradation of THC to CBN or other compounds

STEP 4

Custom botanical terpene blends are added and the formulation is filled in our upgraded Greentank hardware

HARDWARE OPTIMIZATION

QUALITY WITHOUT COMPROMISE

GOAL

Deliver peak performance through optimizing oil flow, vapour production, and flavour

WHAT WE DID

- Optimized atomizer inlet hole size, resistance, and power to deliver the most consistent flow of oil into the atomizer, creating consistent vapour production and flavour
- Evaluated impact of terpene content which influences the overall flavour experience and the flow rate of the oil

RESULT

Selected 2.0 mm inlet holes and 4.5% terpene content to ensure optimal oil flow, improved flavour and vapour production, and an overall better user experience, while preventing leaking, clogging, and starvation of the atomizer

GET OPTIMAL HITS AT A **3.0-3.4v** BATTERY POWER SETTING

*Push button vape battery with pre-heat function and variable heat setting recommended

POTENCY WITH PROOF

With potency being a main deciding factor for purchasing, ultra-high THC (>90%) vapes are on the rise. Look past the label, get the receipts. DEBUNK Ice is never static labelled and all CoAs are available at debunk.life/coa or by scanning the QR code below.

ICE

LIQUID DIAMONDS

1.0 G | 90-96% THC | 3-5% TERPS

*THCa DIAMONDS EXTRACTED FOR MAXIMUM POTENCY AND PURITY
BOLD FLAVOURS FROM CUSTOM TERPENE BLENDS
TESTED AND VALIDATED GREENTANK HARDWARE
SUBTLE FROSTY EXHALE*

Level up your vape with maximum potency and optimal performance. Our proprietary hydrocarbon extraction process takes THCa diamonds and converts them into an ultra-pure, ultra-potent THC liquid isolate. Our liquid diamond isolate is flavoured with custom botanical terp blends and paired with premium Greentank hardware, delivering a pure, potent, and consistent sesh from the first puff.
